

## Designed for

### Digium phones are designed exclusively for use with iProphet

All models include unprecedented HDVoice and plug-and-play deployment at a price that fits any budget. With multiple line appearances, contextual soft keys, and advanced applications, you can access the information you need instantly. Digium's phones are the only phones that allow you take full advantage of the flexibility and customization of **iProphet**

Digium phones are designed exclusively for iProphet SIP PBX

### Advanced Applications

Access to information is the key to productivity in today's business environment. The integrated applications that come standard on all Digium phones put critical information at your fingertips. With voicemail, call log, contacts, phone status, user presence, parking and queue metrics, the Digium phones provide simple, intuitive access to a wealth of information, saving valuable time.

### Easy Installations

Standards-based IP phones have a reputation for being difficult to install and configure. Most systems require changes to network configurations or additional components. Digium phones support plug-and-play provisioning. Simply plug these phones in, automatically discover your **iProphet**

Installing an entire office with **iProphet** is even easier. Simply scan a barcode from the box and the phone is instantly linked to a **iProphet** user. When the phone starts up it will automatically pull the proper configuration from the server. **No-touch installation** — *that's innovation.*
